<b>INSTRUCTIONS</b>				
Sections I and II may be completed separately within a 30-day period before the flight check. All items for the appropriate type check must be completed indicating S - Satisfactory, U - Unsatisfactory or V - Verbally. If a member can satisfactorily perform the more complex maneuvers, less complex maneuvers need not be accomplished at the discretion of the check pilot. Pilots are evaluated on their ability to satisfactorily perform the tasks assigned, knowledge of procedures, smoothness, judgment, and mastery of the aircraft. Failure to meet the standards of performance for any task performed will result in an unsatisfactory evaluation. Tolerances specified in the FAA Private Practical Test Standards represent the minimum performance expected in good flying conditions.
